|                      | Women        |                 |                               | Men          |                 |                               |
|----------------------|--------------|-----------------|-------------------------------|--------------|-----------------|-------------------------------|
| Goals                | No. of Goals | GuM (in crores) | Average Goal Size (In crores) | No. of Goals | GuM (In crores) | Average Goal Size (In crores) |
| Retirement           | 1309         | 7,723           | 5.9                           | 6092         | 21,200          | 3.48                          |
| Children's Education | 1122         | 650.76          | 0.58                          | 7975         | 3,509           | 0.44                          |
| Children's Marriage  | 340          | 160             | 0.47                          | 2852         | 1,340           | 0.47                          |
| Wealth Creation      | 545          | 228.9           | 0.42                          | 2237         | 1,544           | 0.69                          |
| Home Purchase        | 534          | 208             | 0.39                          | 2058         | 843.78          | 0.41                          |
| Loan Prepayment      | 254          | 27.94           | 0.11                          | 1492         | 209             | 0.14                          |
| Emergency Fund       | 469          | 37.52           | 0.08                          | 1554         | 140             | 0.09                          |
| Car Purchase         | 192          | 11.52           | 0.06                          | 710          | 78.1            | 0.11                          |
| Holiday              | 227          | 9.08            | 0.04                          | 608          | 36.48           | 0.06                          |
| Tax                  | 0            |                 | -                             | 261          | 0               | 0                             |
| Total                | 4992         | 9,057           | 8.05                          | 25839        | 28,900          | 5.89                          |

### **Average Goal Size for Retirement – A comparison (in crores)**

### **Average Goal Size for Children's Education – a Comparison (in crores)**

- Women set significantly higher individual goals for retirement, indicating a strong focus on retirement planning with average goal size at 5.9 crores vs men at 3.48 crores
- Women set larger individual goals for child education, with an average goal size of ₹ 58 lakhs compared to men's ₹ 44 Lakhs, indicating a more focused approach.

### 3. Portfolio Analysis – Invested Amount and Current Value

|                    | Women Investors | Male Investor |
|--------------------|-----------------|---------------|
| Average Investment | ₹ 4,69,953      | ₹ 4,07,663    |

#### Average Investment Size

Average investment size of Women investors is ₹4,69,953, while average investment size of male investors is ₹4,07,663 signifying a healthy trend of increased investor awareness amongst women investors at FinEdge.

#### 4. Years of Investing with FinEdge

| Tenure with FinEdge (in years) | Percentage |
|--------------------------------|------------|
| 0-1                            | 18.76%     |
| 1-3                            | 14.92%     |
| 3-5                            | 10.88%     |
| 5 and above                    | 55.45%     |

- Women show resilience in investing with 67% women staying invested for 3 years and more
- Interestingly, out of this 55.45% women investors have stayed invested for 5 years or more
- This suggests women being highly oriented towards long term goals
- Investing for longer tenors can be testing and investing behaviour plays a key role. A positive trend of more women who have stayed invested through challenging periods in the markets due to high goal orientation.

## 5. Growth of Women Investors

| Year | % of Women investors | % of Male investors |
|------|----------------------|---------------------|
| 2020 | 25.68%               | 74.32%              |
| 2021 | 34.50%               | 65.50%              |
| 2022 | 33.73%               | 66.27%              |
| 2023 | 42.69%               | 57.31%              |
| 2024 | 46.15%               | 53.85%              |

*In the past three years, the growth in share of new women investors at FinEdge, from 34.50% to 46.15% denotes a positive trend. Women are participating more in securing their financial future by investing for their goals and following an investing process that gives clarity and purpose. The narrowing of gender gap is evident from 2021, when 65.50% new clients were men versus 53.85% in 2024.*

## 6. Women as early investors:

Women are early investors with 39.3% of women clients at FinEdge starting investments in their 20s and another 41% who started investing in their 30s. The importance of starting early and the delayed cost of investing go hand in hand. The investing awareness trend of young women investors is encouraging as most goal tenors are in the range of 15-20 years and if goals can be attained at a younger stage (due to the early start of investments), it is the icing on the cake.

## 7. Age Demographic of women investors and Top 3 goals based on age bucket

### For Women

| Age 21-30 | Goal Priority        | Avg Goal Amount (in Cr) |
|-----------|----------------------|-------------------------|
